PART OF THE
CAMBRIDGE ASSESSMENT
GROUP

The three levels

The Cambridge Young Learners English Tests consist of three key levels of assessment: Starters, Movers and Flyers.

The aims of the tests are to:

- sample relevant and meaningful language use
- measure accurately and fairly
- present a positive first impression of international tests
- promote effective learning and teaching
- encourage future learning and teaching.

The three tests together form a bridge to take young learners of English as a foreign language from beginner to Waystage level (A2).

A wide range of text books and teaching materials which are used in classrooms throughout the world are reviewed as part of the on-going test development process, and the tests reflect the main content areas which frequently occur (topic, vocabulary, etc.) and the presentation of the material. Both text and pictures are presented in a clear and attractive way, taking into account the age and background of the intended candidates.

The table below indicates the common characteristics and variations in the different levels of the tests.

Introduction

Preface

This handbook contains the specifications for all three levels of the Cambridge Young Learners English Tests (Starters, Movers and Flyers). It is designed for use by teachers who are preparing candidates for the tests, or who are considering doing so.

Introduction to Cambridge ESOL

University of Cambridge ESOL Examinations

University of Cambridge ESOL Examinations (Cambridge ESOL) is a part of Cambridge Assessment (UCLES), which has provided examinations in English for speakers of other languages since 1913. Cambridge ESOL offers an extensive range of examinations, certificates and diplomas for learners and teachers of English. In 2002 over 1.2 million people took these examinations at centres in over 130 countries.

Cambridge ESOL examinations can be taken by anyone whose first language is not English. They are suitable for learners of all nationalities, whatever their first language and cultural background, and there are examinations suitable for learners of almost any age. The range of Cambridge ESOL examinations includes specialist examinations in Business English and English for Academic Purposes, as well as tests for young learners and a suite of certificates and diplomas for language teachers.

The examinations cover all four language skills – reading, writing, listening and speaking. They include a range of tasks which assess candidates' ability to use English so that in preparing for the examinations, candidates develop the skills they need to make practical use of the language in a variety of contexts. Above all, what the Cambridge ESOL examinations assess is the ability to communicate effectively in English.

Cambridge ESOL is committed to providing examinations of the highest possible quality. This commitment is underpinned by an extensive programme of research and evaluation, and by continuous monitoring of the marking and grading of all Cambridge ESOL examinations. Of particular importance is the rigorous set of procedures which are used in the production and pretesting of question papers.

Key features of Cambridge ESOL examinations

Cambridge ESOL undertakes:

- to assess language skills at a range of levels, each of them having a clearly defined relevance to the needs of language learners
- to assess skills which are directly relevant to the range of uses for which learners will need the language they have learned, and which cover the four language skills – reading, writing, listening and speaking – as well as knowledge of language structure and use
- to provide accurate and consistent assessment of each language skill at the appropriate level
- to relate the examinations to the teaching curriculum in such a way that they encourage positive learning experiences, and to seek to achieve a positive impact wherever possible
- to endeavour to be fair to all candidates, whatever their national, ethnic and linguistic background, gender or disability.

Cambridge ESOL examinations are designed around four essential qualities: validity, reliability, impact and practicality. Validity is normally taken to be the extent to which a test can be shown to produce scores which are an accurate reflection of language skills. Reliability concerns the extent to which they can be depended on for making decisions about the candidate. Impact concerns the effects, beneficial or otherwise, which an examination has on the candidates and other users, whether these are educational, social, economic or political, or various combinations of these. Practicality can be defined as the extent to which an examination is practicable in terms of the resources needed to produce and administer it. All these factors underpin the development and production of Cambridge ESOL examinations.

Background to the Cambridge Young Learners English Tests

The Cambridge Young Learners English Tests are designed to offer a comprehensive approach to testing the English of primary learners between the ages of 7 and 12. As such they will provide an appropriate first step towards the Cambridge Main Suite of examinations (e.g. KET and PET) which are designed for young people and adults.

The tests take account of relevant research in a number of areas and the specific needs of prospective test users (children, parents and teachers).

In producing the tests, particular attention is paid to the educational consequences of using a language test with young learners and the following areas are carefully considered:

- current approaches to curriculum design and pedagogy for young learners, including recent course books and other resource materials (e.g. CD ROM)
- children's cognitive and first language development
- the potential influence of test methods, including the familiarity and appropriacy of different task types, question formats, typography and layout
- probable variation between different first language groups and cultures.

Above all, it is essential for the testing experience to have a positive impact on the children's future language learning.

An important aspect of the test development project was collaboration with staff at Homerton College (Cambridge University's teacher training college), who developed classroom materials linked to the tests.

Administration

In order to provide a flexible system which fits in with different regional requirements, in most countries there is no fixed timetable of administration for any of the Young Learners English Tests. Authorised Cambridge ESOL Examination Centres administer the tests on dates chosen to fit in with local conditions (school terms, holiday periods, etc.).

Marking and Results

In the Reading and Writing paper correct spelling is required. In Part 2 of the Listening paper some misspellings are allowed. Candidates must follow the rubrics carefully and keep within the word limits. The completed question papers are returned to Cambridge to be marked. The results are then issued as soon as possible (normally within about two weeks of receipt of the scripts by Cambridge ESOL).

Results are reported in a way designed to provide positive encouragement to the learners. All candidates who complete their test receive an Award, which focuses on what they can do (rather than what they can't do) and gives the children credit for having taken part in the test. The Cambridge Young Learners English Tests are high facility tests. This means that most candidates do very well. There are inevitably minor differences in the difficulty level across tests. In order to equate different test versions, the shield score boundaries are set so that all candidates' results relate to the same scale of achievement. This means, for example, that the Shield 4 boundary may be set at a slightly different raw score across versions.

Average shields awarded are reported in the annual YLE examination report which is available at www.CambridgeESOL.org/support/dloads/yle_downloads.htm

Level

The Young Learners English Tests are aligned with the Council of Europe's Common European Framework for Modern Language, at levels A1 and A2.

The Flyers test is roughly equivalent to the Cambridge Key English Test (KET) in terms of difficulty, but the lexis and contexts covered are suitable for a younger age range.

There are three possible routes from the Cambridge Young Learners English Tests to Cambridge Main Suite examinations. Candidates may take all three levels of the Young Learners English Tests before moving on either to KET or to PET, or they may take Movers and then move straight on to KET.

Common European Framework Level	General English Main Suite	Cambridge Young Learners English Tests
C2 Good User	CPE Certificate of Proficiency in English	
C1 Competent User	CAE Certificate in Advanced English	
B2 Independent User	FCE First Certificate in English	
B1 Threshold User	PET Preliminary English Test	
A2 Waystage User	KET Key English Test	YLE Flyers
A1 Breakthrough		YLE Movers

Special circumstances

Special circumstances covers three main areas: special arrangements, special consideration and malpractice.

- **Special arrangements:**
These are available for candidates with a permanent or long-term disability, such as a visual or hearing difficulty, or a temporary difficulty such as a broken hand, or ear infection affecting a candidate's ability to hear clearly. They may include extra time, separate accommodation or equipment etc. Consult the Cambridge ESOL Local Secretary in your area for more details as soon as possible.
- **Special consideration:**
Cambridge ESOL will give special consideration to candidates affected by adverse circumstances immediately before or during an examination. Special consideration can be given where an application is sent through the centre and is made within ten working days of the examination date. Examples of acceptable reasons for giving special consideration are in cases of illness or other unexpected events.
- **Malpractice:**
Cambridge ESOL will consider cases where candidates are suspected of copying, collusion or breaking the examination regulations in some other way. Results may be withheld because further investigation is needed or because of infringement of regulations. Centres are notified if a candidate's results have been investigated.

YLE Support

Course materials

A number of coursebooks and practice materials are available from publishers. YLE requires an all-round language ability and this should be borne in mind when selecting course materials. Most coursebooks will need to be supplemented; care should be taken to ensure that coursebooks and practice materials selected accurately reflect the content and format of the examination.

N.B. Cambridge ESOL does not undertake to advise on textbooks or courses of study.

Past papers and examination reports

Cambridge University Press publishes past papers, which can be used for practice, and Cambridge ESOL produces examination reports, which provide a general view of how candidates performed overall and on each paper and offer guidance on the preparation of candidates. Details of how you can order past papers and examination reports, and a downloadable order form, are available from www.CambridgeESOL.org/support/pubs/index.cfm

On-line support

Cambridge ESOL provides an on-line resource for teachers, designed to help them understand the examinations better and to prepare candidates more effectively.

The Teaching Resources website can be found at www.CambridgeESOL.org/teach

Seminars for teachers

Cambridge ESOL offers a wide range of seminars designed for teachers concerned with the examinations; some are also suitable as introductions for administrators, school directors, etc. Some seminars are intended to provide information and support for teachers who are familiar with the examinations, and others can be used to introduce teachers to established examinations. Contact the Cambridge ESOL Helpdesk for further details.

Further information

Copies of the Regulations and details of entry procedure, current fees and further information about this and other Cambridge examinations can be obtained from the Cambridge ESOL Local Secretary in your area, or from the address on the back cover of this handbook. In some areas this information can also be obtained from the British Council.

The three syllabuses

The syllabuses for the three levels follow. They describe the topics, the grammar and structures, the lexis and the tasks on which the tests are based.

These are test syllabuses. Considerable care has been taken to reflect the language covered in a wide range of Primary English courses and materials.

A guiding principle for the tests is a desire to close the distance between the children's experiences of learning and of testing. Tasks are intended to test the meaningful use of language in clear, relevant, accessible contexts. Children must know what to expect when they sit down to take the tests, or the unfamiliarity could cause anxiety. For this reason, we publish the full vocabulary and grammar and structures lists. Teachers should familiarise the children with the test format whilst continuing their normal teaching programmes and concentrate on teaching through a focus on meaning and context.

In general the language input to the tests is likely to be of a standard British English variety, although care is taken to avoid terms which might cause confusion for learners of American English. Some American English terms are included in the vocabulary lists. Versions of the Listening test contain both British and American accents. In terms of a candidate's output, both standard British English and standard American English are equally acceptable.

Starters Listening

Approximately 20 minutes/20 items

There are four parts. Each part begins with one or two examples. All the texts are heard twice.

Part 1

This is a test of five different lexical items – normally taken from two or three semantic fields. The context is provided by a picture, within which the objects are ‘placed’ by the candidate, who has to draw a line from the named object to a location within the picture. The information is conveyed by a dialogue between male and female adult speakers.

Part 2

This is a simple note-taking exercise, in which candidates hear a conversation between a child and an adult. There is one picture to set the context, and a comprehension question for each item. Each answer is either a name or a number. The numbers dictated can be written as digits or words. All names are spelled out letter by letter, and must be spelled correctly for the mark to be awarded.

Part 3

This task consists of five questions, each a three-option multiple-choice with pictures. Candidates listen to the information conveyed in five separate dialogues in which the speakers are clearly differentiated by age or gender. Candidates listen and tick the correct picture.

Part 4

This is a test of lexis, particularly names of colours, and prepositions of place. There is one large picture, and in it there are a number of examples of the same object. The candidate has to identify a certain object by listening to details of its position, and then colour it in correctly. The information is given in a dialogue between an adult and a child.

Summary of Starters Listening Test

Parts	Main skill focus	Input	Expected response	Number of questions
1	Listening for words and prepositions	Picture and dialogue	Carry out instructions and position things correctly on a picture	5
2	Listening for numbers and spelling	Illustrated comprehension questions and dialogue	Write numbers and names	5
3	Listening for specific information of various kinds	3-option multiple-choice pictures and dialogues	Tick correct box under picture	5
4	Listening for words, colours and prepositions	Picture and dialogue	Carry out instructions, locate objects, and colour correctly (Range of colours is: black, blue, brown, green, grey, orange, pink, purple, red, yellow)	5

Recommendations for candidate preparation

Part 1

Practise with pictures to ensure that candidates can recognise all of the nouns on the Starters vocabulary list. Reinforce candidates' knowledge of any less familiar words with puzzles and vocabulary games.

Encourage candidates to draw straight lines from each object to its location – this will be much less confusing for them when they are

checking their work during the second hearing of the recording. Give plenty of practice in understanding and using prepositional phrases so that candidates realise they must listen carefully for prepositions as well as nouns. In doing this, focus particularly on the prepositions in the Starters vocabulary list and make sure that they are clear about the difference between *in* and *on*, and *on* and *under*.

Part 2

Make sure that candidates know what is expected of them in this task. They should appreciate that they only need to write a name or a number in answer to each question. Anything candidates have to write will be clearly heard twice.

Names which candidates are required to write will be spelt out for them. All the names come from the Starters vocabulary list. Candidates therefore need plenty of practice in the letters of the alphabet, paying particular attention to the vowels and the 'difficult' consonants, such as *G* and *J*.

Where a number is required, candidates should be encouraged to write numbers as digits rather than words to avoid spelling mistakes. Candidates will only hear numbers 1–20 so they need plenty of practice in hearing, and recognising, each of those numbers.

Part 3

Candidates are allowed time to look at the pictures before they hear the dialogues. Encourage them to look carefully at the pictures and to think about what they are illustrating.

Train candidates to listen to the whole of each dialogue as the answer may well be provided in several parts of the dialogue rather than just one turn.

Part 4

Ensure that candidates know they should bring coloured pencils to the test.

Make sure candidates understand what is expected of them in this part of the test. They have to identify which one of the seven similar objects in the picture is being described and colour that object in the right way.

Reassure them that this is an English test and not a test of their colouring skills. They should focus on what they hear rather than worrying about how well they are colouring.

Make sure that candidates are familiar with the names of the colours that they are expected to know at this level.

Starters Reading & Writing

20 minutes/25 items

There are five parts. Each part begins with one or two examples. **Correct spelling is required in all parts of the Reading & Writing Test.**

Part 1

In this task the candidate reads sentences. There are five statements, each accompanied by a picture, and the candidate has to place a tick in a box if the statement matches the picture, and a cross if it does not.

Part 2

Candidates look at a picture and five statements, some of which correctly describe the picture and some which do not. Candidates write 'yes' or 'no' as appropriate.

Part 3

This is a test of knowledge of words and spelling. There are five pictures of objects, each accompanied by the word for the object given as jumbled letters. The candidate must write the word for each object. Dashes indicate the number of letters in the answer.

Part 4

Candidates read a text and look at the words with pictures in a box below the text. They then copy the correct words in each of the five gaps. All missing words are singular or plural nouns. There are two extra words which candidates should not use.

Part 5

A story is told through three pictures, with five questions, each of which requires a one-word answer. The correct word may be a noun, verb or number.

Summary of Starters Reading & Writing Test

Parts	Main skill focus	Input	Expected response	Number of questions
1	Reading short sentences and recognizing words	Words, pictures, and sentences	Tick or cross to show if sentence is true or false	5
2	Reading sentences about a picture Writing one-word answers	Picture and sentences	Write 'yes'/'no'	5
3	Spelling of single words	Pictures and sets of jumbled letters	Write words	5
4	Reading a text Writing missing words (nouns)	Cloze text, words and pictures	Choose and copy missing words	5
5	Reading questions about a picture story Writing one-word answers	Story presented through 3 pictures and questions	Write one-word answers to questions	5

Recommendations for candidate preparation

General comment

Many marks are lost because letters and/or words are not clearly written. Remind candidates to check that what they have written is clear enough to be read by someone who is not familiar with their handwriting. It is often better not to use joined-up writing, as letters can become confused and unclear.

Candidates should be reminded to write only as much as they need

to, as marks are often lost attempting unnecessarily long answers which provide more opportunities for making mistakes.

Because young candidates are unlikely to have had much experience managing their time in an examination, it can be helpful when doing classroom tasks to give them a time limit both to improve concentration and prevent them being distracted by other things.

Make sure candidates are familiar with the vocabulary, grammar and structures in the Starters syllabus.

Part 1

Encourage candidates to read the sentences and look at the pictures very carefully (at least twice), and make sure they know that the mark they put in the box must be an unambiguous tick or a cross – if it looks as if it could be either, they will lose the mark.

When introducing new words to candidates, make sure they can distinguish between related words that are commonly confused (e.g. *sock/shoe*).

Give candidates practice in marking sentences with ticks or crosses to indicate whether they are true or false.

Part 2

Give candidates plenty of practice in matching sentences to pictures.

Ask them to read texts which describe scenes and to draw the picture according to the information in the text.

Do plenty of exercises comparing and contrasting different structures and vocabulary related to pictures, for example, prepositions such as *in* and *on*, the present continuous tense, different sports, etc. Concentrate on words which are likely to be confused, e.g. *photo/camera*, or which have 'false friends' in the candidates' first language.

Make sure that candidates are very familiar with action verbs that they are likely to come across in this section (*run, ride, walk, play, throw, sing*, etc.).

Make sure they realise that if any element of the sentence is false, then they must write *no*, even if there is an element which is true, for example, *The woman is throwing the ball to the girl*. The woman must be both throwing the ball and throwing it to the girl for a *yes* answer.

Part 3

Candidates should have practice in writing all the words in the Starters vocabulary list.

For this part, give candidates plenty of spelling exercises, using words from the list. Write difficult or less common words up on the classroom walls so that candidates become very familiar with them.

Reinforce candidates' knowledge of common letter patterns in English – *ea, ck, ight, ou, er*, etc.

Remind candidates that they must only use the letters provided when doing this part. Practise doing anagrams.

Part 4

Candidates should be encouraged to read holistically for a sense of the text before trying to answer questions.

Practice in guessing which word could go into each gap would be extremely useful. Candidates can then confirm their guesses by seeing, and choosing from, the options underneath the text.

Remind candidates that each answer is only one word, and must make sense in the story. It must also fit grammatically. Therefore, give candidates plenty of practice matching pictures and words and mixing up plurals and singulars to encourage them to be alert to these distinctions. Also, help them to identify words or grammatical forms that will indicate whether an answer should be plural or not, e.g. if a gap is preceded by *a*.

Part 5

Train candidates to learn the correct spelling of Starters words.

Do exercises which encourage careful reading.

Key question words like '*Where*' and '*When*' are often misinterpreted or confused in Part 5, so do exercises which

encourage quick, accurate reading so that key question words are correctly identified and understood.

Candidates should practise answering questions with single words, with the emphasis on selecting key information.

Starters Speaking

3-5 minutes/5 parts

The Speaking Test is a face-to-face test with one examiner and one candidate. It lasts approximately 4 minutes. The examiner's language is scripted to ensure fairness to all candidates. The script gives examiners scope to offer help and encouragement.

Each child is taken into the test by an usher. This is someone who speaks their first language and may be known to the child. The usher explains the test format in the child's first language, before taking the child into the exam room and introducing them to the examiner.

The mark for the Speaking Test is based on ratings for interactive listening ability, production of words and phrases and pronunciation.

Part 1

The examiner greets the candidate and checks the candidate's name. This part is unassessed.

The examiner starts the test by demonstrating what is required and then asks the child to point to objects on the scene card.

Part 2

The examiner asks the candidate to point to three object cards and gives instructions to place them in different locations on the scene card.

Part 3

The examiner asks the candidate some questions about the scene card.

Part 4

The examiner asks the candidate questions about three of the object cards.

Part 5

The examiner asks the candidate some personal questions on topics such as age, family, school and friends.

Summary of Starters Speaking Test

Parts	Main skill focus	Input	Expected response
1	Understanding and following spoken instructions	Scene picture	Point to correct part of the picture
2	Understanding and following spoken instructions	Scene picture and 8 small object cards	Place object cards on the scene picture as directed
3	Understanding and answering spoken questions	Scene picture	Answer questions with short answers
4	Understanding and answering spoken questions	3 object cards	Answer questions with short answers
5	Understanding and responding to personal questions	No visual prompt	Answer questions with short answers

Recommendations for candidate preparation

Candidates in the Starters Speaking Test are required to follow simple instructions, answer simple questions about a picture and about themselves. These are standard tasks in most English classes for Young Learners. Cambridge Young Learners English Tests Sample Papers give examples of the kind of pictures, instructions and questions candidates will be asked to respond to.

Part 1

Candidates should practise identifying people, animals and things in different pictures by pointing in response to questions such as:

Where's the snake?

Where are the fish?

Part 2

Candidates should also practise placing smaller pictures in

Starters Speaking

different positions on a larger picture in response to instructions such as:

Put the bike under the tree.

Put the cake in the boat.

Candidates should not worry if the required position (of, for example, the dog) does not seem to be a very appropriate one!

Part 3

Candidates should also practise answering simple questions about a picture (with one-word answers). For example:

What's this? (elephant)

What colour is it? (grey)

How many fish are there? (three)

What's the boy doing? (drinking)

Part 4 and 5

In Parts 4 and 5, candidates need to feel confident that they can give basic information about themselves and can answer questions such as:

What's your name?

How old are you?

What's your friend's name?

Is your house big or small?

Can you play table tennis?

What's your favourite colour/animal/sport/food?

Use English to give everyday classroom instructions so that children become very familiar with instructions like *Look at...*, *Listen to...*, *Give...*, *Put...*, *Find...* .

Candidates create a good impression when they can handle greetings and other social formulae confidently. Make sure they are happy using *Hello*, *Goodbye* and *Thank you*, and that they have plenty of practice at using *Sorry*, or *I don't understand* whenever this is appropriate.

Letters & Numbers Candidates will be expected to understand and write the letters of the alphabet and numbers 1-20.

Names Candidates will be expected to recognise and write the following names:

Alex	Ben	Kim	Nick	Sue
Ann	Bill	Lucy	Pat	Tom
Anna	Jill	May	Sam	Tony

Movers Listening

Approximately 25 minutes/25 items

There are five parts. Each part begins with one example. All tasks are heard twice.

Part 1

In this task, candidates look at a picture which shows people doing different things. Above and below are people's names. Candidates listen to a dialogue between an adult and a child and draw lines from the names to the correct person in the picture.

Part 2

This is a note-taking exercise in which candidates listen to a conversation between two speakers and write a word or a number next to five short prompts on a form or page of a notepad. Some misspellings will be allowed for words which are not spelt out on the recording.

Part 3

In this task candidates listen to a dialogue in which a child describes to an adult what he/she did during the past week. Candidates listen and draw lines from the days of the week to the correct pictures.

Part 4

This task consists of five questions, each a three-option multiple-choice with pictures. Candidates listen to five dialogues in which the speakers are clearly differentiated by age or gender. Candidates listen and tick the correct picture.

Part 5

This task consists of a dialogue in which an adult asks a child to colour different things in a picture, and write a simple word or draw an object. Candidates listen to the dialogue and follow the instructions.

Summary of Movers Listening Test

Parts	Main skill focus	Input	Expected response	Number of items
1	Listening for names and descriptions	Picture, names and dialogue	Draw lines to match names to people in a picture	5
2	Listening for names, spellings and other information	Form or page of notepad with missing words and dialogue	Write words or numbers in gaps	5
3	Listening for specific information (past tense)	Pictures, days of the week and dialogue	Draw lines from days of week to correct pictures	5
4	Listening for specific information of various kinds	3-option multiple-choice pictures and dialogues	Tick boxes under correct pictures	5
5	Listening for words, colours and specific information	Picture and dialogue	Carry out instructions to colour and draw or write (Range of colours is: black, blue, brown, green, grey, orange, pink, purple, red, yellow)	5

Recommendations for candidate preparation

Part 1

Ensure that candidates realise that there is one extra name at the top of the page which will not be mentioned. They should not aim to connect all seven names to a person in the picture.

Make sure that candidates know which first names on the vocabulary lists are male and which are female. Note that *Alex*, *Kim*, *Pat*, and *Sam* may be used to refer either to a boy or to a girl.

Train candidates to listen for all the information that they are given about a particular person. They should not jump to conclusions after hearing one piece of information, as usually some further information will be required in order to identify the correct person.

Part 2

Candidates often find this part of the Movers Listening test difficult. Practise by doing similar productive tasks in the classroom.

Encourage candidates to be as accurate as possible in their spelling of the words on the Starters and Movers vocabulary lists.

Ensure that candidates realise that they have to write responses which make sense, given the prompts on the question paper. They should look at these prompts carefully and think about what they mean before listening to the recording.

Part 3

Train candidates to draw a line to the appropriate picture in the most direct way possible, rather than across 2 or 3 other pictures which may well lead to confusion. Make sure candidates realise they will be expected to use any one day of the week once only, and that one day of the week will not be used at all.

Encourage candidates not to leave any questions unanswered. When they have used all the days that they are sure about, they should try to make an intelligent guess as to which days the remaining pictures represent.

Part 4

Make sure that candidates realise that they must listen to the whole dialogue, before deciding on their answer.

Often quite a wide range of vocabulary is covered in this part of the test. Candidates must be familiar with all the words in the Starters and Movers vocabulary lists, in order to be sure of achieving full marks.

Part 5

Ensure that candidates appreciate that they will either have to draw or write something for one of the questions in this part of the Movers test. If they have to write something, it will not be a difficult word and there will probably be something in the picture that makes it a logical word to write.

Train candidates to listen carefully for prepositional phrases which describe exactly where something is (e.g. *the bag behind the chair* or *the towel on the floor under the desk*).

Movers Reading & Writing

30 minutes/40 items

There are six parts. Each part begins with one or two examples. **Correct spelling is required in all parts of the Reading & Writing Test.**

Part 1

In this task, candidates match words and definitions. There are eight pictures, each with the words that they illustrate written under them, and six definitions. Candidates copy the correct words next to the definitions.

Part 2

Candidates look at a picture and six statements, some of which correctly describe the picture and some which do not. Candidates write 'yes' or 'no' as appropriate.

Part 3

In this task, candidates read a short written dialogue, for which three different responses are given for what the second speaker says in his/her turn. Candidates choose the correct response by circling letters.

Part 4

Candidates read a text and look at the words and pictures in a box next to the text. They then copy the correct words in each of the six gaps. The missing words are nouns, adjectives or verbs (present and past tense). There are two extra words which candidates should not use.

Candidates choose the best title for the story from a choice of three.

Part 5

Candidates read a story and complete sentences using one, two or three words. The story is divided into three sections each with an illustration. The pictures do not provide answers to the questions.

Part 6

In this task, candidates read a factual text which contains five gaps. They choose the correct word from a choice of three and copy the correct words in the gaps. This task has a grammatical focus.

Summary of Movers Reading & Writing Test

Parts	Main skill focus	Input	Expected response	Number of items
1	Reading short definitions and matching to words Writing words	Labelled pictures and definitions	Copy correct words next to definitions	6
2	Reading sentences about a picture Writing one-word answers	Picture and sentences	Write 'yes' / 'no'	6
3	Reading a dialogue Choosing the correct responses	Short dialogue with multiple-choice responses	Choose correct response by circling a letter	6
4	Reading for specific information and gist Copying words	Cloze text, words and pictures	Choose and copy missing words correctly. Tick a box to choose the best title for the story	7
5	Reading a story Completing sentences	Story, pictures and gapped sentences	Complete sentences about story by writing 1, 2 or 3 words	10
6	Reading and understanding a factual text Copying words	Gapped text and 3-option multiple-choice (grammatical words)	Complete text by selecting the correct words and copying them in the corresponding gaps	5

Recommendations for candidate preparation

General comment

Many marks are lost because letters and/or words are not clearly written. Remind candidates to check what they have written is clear enough to be read by someone who is not familiar with their handwriting. It is often better not to use joined-up writing, as letters can become confused and unclear.

Candidates should be reminded to write only as much as they need to, as marks are often lost attempting unnecessarily long answers which provide more opportunity for making mistakes.

Because young candidates are unlikely to have had much experience managing their time in exams, it can be helpful when doing classroom tasks to give a time limit, both to improve concentration and prevent candidates being distracted by other things.

Make sure candidates are familiar with the structures and vocabulary in the Movers and Starters syllabuses.

Part 1

Give candidates practice in reading and writing definitions of items from the Movers vocabulary list. Ensure candidates are familiar with the structures and vocabulary commonly used in defining things, such as *you* with general reference (e.g. *You can find books or do your homework in this place*), relative pronouns and infinitives used to express purpose.

Candidates should practise accurate copying, but remind them to copy the whole option and not to add anything extra. This means including the article if there is one, and not adding one if it is not needed. Once they have written the answer, they should check that they have spelt the words correctly.

Part 2

Give candidates plenty of practice matching pictures and sentences, drawing their attention to elements such as prepositions and verb forms (especially the present continuous tense) and using pictures which make these distinctions clear. Give more pictures than sentences, so that they really have to think about the distinction between, for example, *is riding a bike* and *has got a bike*.

Remind candidates that the sentence must be completely true according to the picture for a *yes* answer, for example, *The floor is wet and there's a toothbrush on it*.

Part 3

Remind candidates to read all the options before choosing the best and most appropriate one. Practise appropriate responses, not just to questions, but also to statements.

Give plenty of practice with the use of set (formulaic) expressions and with short *Yes/No* answers.

Give plenty of practice, too, with multiple-choice questions to encourage candidates to understand the differences between the options in meaning, grammar, sense and appropriacy.

Part 4

Candidates should be encouraged to read the whole text to get a general idea of what it is about before trying to complete the first gap. Make sure candidates realise that they need to read the text surrounding the question to be able to correctly fill the gap. Practice in guessing which word could go into each gap would be extremely useful. Candidates can then confirm their guesses by

seeing, and choosing from, the options on the facing page.

Also, practise choosing the right form of words (plural/singular nouns, adjectives, verbs) within sentences and texts. Help candidates to identify words or structures that will indicate what form of word the answer should be.

Part 5

Remind candidates that the pictures are there to support the story, although they do not provide the answers to the questions. Useful practice can be gained from predicting an outline of the story from the three pictures and the title. However, it must be remembered that the answers should always be found in the texts. Practice in reading for gist is useful, as are tasks aimed at understanding whole texts, for example, selecting titles for paragraphs or complete stories.

Give candidates practice in finding synonyms/alternatives for nouns, identifying what is being referred to in a text, how nouns can be replaced with pronouns, and how sentences can be turned around whilst retaining their meaning. Candidates are not expected to produce vocabulary or grammatical structures that are not in the text, but must ensure that the words they choose to complete the sentence frames are grammatically correct.

Part 6

As with Part 4 above, candidates should practise choosing and forming the correct type of word (nouns, adjectives, verbs) to fit into sentences and texts.

Remind candidates that they must choose from the three options given. It is not necessary for them to think of a word to fit each space. Remind candidates to be careful to check that they have chosen a word from the correct set of options.

As in Part 5, practise reading skills such as understanding how pronouns can refer back to names or items.

Movers Speaking

5-7 minutes/4 parts

The Speaking Test is a face-to-face test with one candidate and one examiner. It lasts approximately 6 minutes. The examiner's language is scripted to ensure fairness to all candidates. The script gives examiners scope to offer help and encouragement.

Each child is taken into the test by an usher. This is someone who speaks their first language and may be known to the child. The usher explains the test format in the child's first language, before taking the child into the exam room and introducing them to the examiner.

The mark for the Speaking Test is based on ratings for interactive listening ability, production of extended responses and pronunciation.

Part 1

The examiner greets the candidate and checks the candidate's name. This part is unassessed.

The examiner starts the test by demonstrating what is required and by showing the candidate two pictures which look similar, but have

some differences. The examiner then asks the candidate to describe four differences.

Part 2

The examiner shows the candidate a sequence of four pictures and describes the first picture in the story. He/she then asks the candidate to describe the other three pictures.

Part 3

The examiner shows the candidate four sets of four pictures where one picture in each set is the 'odd-one-out'. The candidate has to identify which picture is the odd-one-out and say why.

Part 4

The examiner asks the candidate some personal questions on topics such as school, weekends, friends and hobbies.

Summary of Movers Speaking Test

Parts	Main skill focus	Input	Expected response
1	Describing 2 pictures by using short responses	Two similar pictures	Identify four differences between pictures
2	Understanding the beginning of a story and then continuing it based on a series of pictures	Picture sequence	Describe each picture in turn
3	Suggesting a picture which is different and explaining why	Picture sets	Identify odd-one-out and give reason
4	Understanding and responding to personal questions	Open-ended questions	Answer personal questions

Recommendations for candidate preparation

Candidates in the Movers Speaking test are required to follow instructions and talk in a very simple way about different pictures, and to answer simple questions about themselves. These are standard tasks in most English classes for Young Learners. Cambridge Young Learner English Tests Sample Papers give examples of the kind of pictures, instructions and questions candidates will be asked to respond to.

Part 1

For Part 1, candidates should practise describing differences between two similar pictures. The differences may be related to colour, size, number, position, appearance, activity, etc.

For example:

This coat is red, but this one's yellow.

Here, there's a bird, but here, there's a cat.

Here, the boy's eating a burger, but here, he's eating chips.

It's cloudy in this picture, but it's sunny in this one.

Although the above represent examples of ideal responses, something much simpler is perfectly acceptable. For example, *Here red and here yellow*, etc.

Part 2

Part 2 in the Movers Speaking test requires candidates to tell a simple story based on four pictures. Candidates will benefit from practice in telling simple picture stories. Note that examiners are not looking for evidence of storytelling skills. Candidates are only expected to say a few words about each picture in the sequence without necessarily developing these comments into a narrative.

The structures candidates will need most frequently in this task are *There is/are*, the present tense of the verbs *be* and *have (got)*, the modals *can/can't* and *must/mustn't* and the present continuous tense of some action verbs (for example, *play, read, look at, write, laugh, go*). They should be able to say things like *The woman's talking, The boy's in the park*. Candidates should also be able to describe simple feelings, for example, *The boy is/isn't happy*. The examiner will prompt by asking a question if a candidate needs help.

Part 3

For Part 3, candidates should practise identifying the different one in a set of four pictures – for example, a picture of a book among three pictures of different fruits, a picture of some children sitting among three pictures of people dancing, a picture of a sweater among three pictures of animals, a picture of something on a bed among three pictures of something under a bed. Candidates are only expected to give simple reasons for choosing a picture as the different one. For example:

These are fruit, this isn't.

This is a road, but these are water.

These are animals, and this isn't.

This is on a bed, but these are under it.

There may be many different ways of expressing the same difference. Candidates may also find an alternative difference to the one intended. This is perfectly acceptable provided they give a reason for their choice.

Part 4

Finally, for Part 4, make sure candidates feel confident answering questions about themselves, their families and friends, their homes, their school and free time activities, their likes and dislikes. They should be able to answer questions such as:

Who do you play with at school?

What games do you play at school?

What do you have for lunch?

Only simple answers of between one to four words are expected. Questions will normally be in the present tense, but candidates should also be prepared to use the past tense and answer questions about, for example, what they did yesterday.

Use English to give everyday classroom instructions so that candidates become very familiar with the English of classroom exercises and activities.

Candidates create a good impression when they can handle greetings and other social formulae confidently. Make sure they are happy using *Hello, Goodbye* and *Thank you*. Encourage them to use *Sorry* or *I don't understand* when this is appropriate.

Flyers Listening

Approximately 25 minutes/25 items

There are five parts. Each part begins with one example. All texts are heard twice.

Part 1

In this task, candidates look at a picture which shows people doing different things. Above and below are people's names. Candidates listen to a dialogue between an adult and a child and draw lines from the names to the correct person in the picture.

Part 2

This is a note-taking exercise in which candidates listen to a conversation between two speakers and write a word or a number next to five short prompts on a form or page of a notepad. Some misspellings will be allowed for words which are not spelt out on the recording.

Part 3

Candidates listen to a conversation which is mainly led by one speaker. They match a list of illustrated words or names with a set of pictures by writing the letter of the correct picture in a box.

Part 4

This task consists of five questions, each a three-option multiple-choice with pictures. Candidates listen to five separate dialogues in which the speakers are clearly differentiated by age or gender. Candidates listen and tick the correct picture.

Part 5

This task consists of a dialogue in which an adult asks a child to colour different things in a picture, write a simple word and draw and colour an object. Candidates listen to the dialogue and follow the instructions.

Summary of Flyers Listening Test

Parts	Main skill focus	Input	Expected response	Number of questions
1	Listening for names and descriptions	Picture, names and dialogue	Draw lines to match names to people in a picture	5
2	Listening for names, spellings and other information	Form or page of a notepad with missing words and dialogue	Write words or numbers in gaps	5
3	Listening for words, names and detailed information	Picture sets and list of illustrated words or names and dialogue	Match pictures with illustrated word or name by writing letter in box	5
4	Listening for specific information of various kinds	3-option multiple-choice pictures and dialogues	Tick box under correct picture	5
5	Listening for words, colours and specific information	Picture and dialogue	Carry out instructions to colour, draw and write (Range of colours is: black, blue, brown, green, grey, orange, pink, purple, red, yellow)	5

Recommendations for candidate preparation

Part 1

Encourage candidates to spend the time they are given to look at the picture before the questions start by thinking about how each of the characters might be described. They should be aware that they will have to focus on language that points to the differences between two similar people in the picture.

The language that candidates will need for this task is that which is used not only for describing people's clothes and physical appearance but also for commenting on what they are doing. Practice in describing a range of pictures and photos containing people is, therefore, likely to help candidates do well in this part of the test.

Part 2

Give candidates as much practice as possible with this kind of productive task, as candidates sometimes find this task difficult.

Make sure that candidates understand the meanings of, and are also able to spell correctly, the words in the Starters, Movers and Flyers vocabulary lists.

Even at Flyers level, candidates often seem uncertain about the names of some letters of the alphabet in English. Clearly the more practice that can be given here the better.

Part 3

Make sure candidates read the introductory question at the head of the task, which sets the context, and gives the instructions. Both should help them to understand what they are being asked to do.

Encourage candidates to listen carefully to the dialogue and understand exactly what is said. They should remember that speakers will talk about the two pictures which are not correct, as well as those that are. Candidates should therefore not assume that the first word they hear is the right answer.

Part 4

Part 4 covers a wide range of the grammar and vocabulary appropriate to this level. Teachers should make sure that the structures and vocabulary listed in the syllabus have been well covered in class.

It is also very important that candidates listen to the whole of the dialogue before choosing their answer. They should be aware that the correct answer to each individual question may come at any point in the dialogue and is not necessarily the last thing mentioned.

Part 5

As with all parts of this test, make sure that candidates know exactly what is expected of them. In Part 5, for example, they are required to write something and also to draw and colour one object. They will not be expected to write or draw anything difficult. Nor will they be expected to draw or colour particularly well. They simply have to show that they have understood the instructions correctly.

For this task, candidates will need to show that they can understand language which distinguishes between two similar but slightly different objects or people. This may be a matter of understanding language which explains precisely where someone or something is, or it may be a matter of understanding language which focuses on how two people or things look different. Practice in handling these types of language will therefore stand candidates in good stead for dealing with this part of the test.

Candidates should be aware that this task is perhaps more challenging than it appears and should ensure that they listen to the instructions very carefully.

Flyers Reading & Writing Test

40 minutes/50 items

There are 7 parts. Each part begins with one or two examples. **Correct spelling is required in all parts of the Reading & Writing Test.**

Part 1

In this task there are fifteen words and ten definitions. The words are not illustrated. Candidates match words to the corresponding definition by writing the correct words.

Part 2

Candidates look at a picture and 7 statements, some of which correctly describe the picture and some which do not. Candidates write 'yes' or 'no' as appropriate.

Part 3

Candidates read a dialogue in which the second speaker's responses are missing. There is a list of possible responses for the second speaker, lettered A–G. Candidates select the appropriate response in each case and write the letter in the gap. There is one response which does not fit the dialogue.

Part 4

Candidates read a gapped text and look at words in a box beside the text. They then copy the correct word in each of the five gaps.

The missing words are nouns, adjectives and verbs (present and past tense). Correct spelling is required. There are four extra words which candidates should not use.

Candidates choose the best title for the story from a choice of three.

Part 5

Candidates read a story and complete sentences using one, two, three or four words. There is one continuous text and one picture. The picture provides a context for the story but does not provide answers to the questions.

Part 6

In this task candidates read a factual text which contains ten gaps. They choose the correct word from a choice of three and copy the correct words in the gaps. This task has a grammatical focus.

Part 7

Candidates read a gapped text often in the form of a diary or a letter. Candidates write one word in each gap. There is no list of words for candidates to choose from. Both lexis and grammar are tested in this task.

Summary of Flyers Reading & Writing Test

Parts	Main skill focus	Input	Expected response	Number of questions
1	Reading definitions and matching to words Copying words	Nouns and definitions	Copy the correct words next to the definitions	10
2	Reading sentences about a picture Writing one-word answers	Picture and sentences	Write 'yes'/'no'	7
3	Reading and completing a continuous dialogue Writing letters	Half a dialogue with responses in a box	Select correct response and write A–G in gap	5
4	Reading for specific information and gist Copying words	Cloze text with words in a box	Choose and copy missing words correctly. Tick a box to choose the best title for the story	6
5	Reading a story Completing sentences	Story, picture and gapped sentences	Complete sentences by writing 1, 2, 3 or 4 words	7
6	Reading and understanding a factual text Copying words	Gapped text and 3-option multiple-choice (grammatical words)	Complete text by selecting the correct words and copying them in the corresponding gaps	10
7	Reading and understanding a short text (e.g. page from diary or letter) Providing words	Gapped text	Write words in gaps No answer options given	5

Recommendations for candidate preparation

General comment

Many marks are lost because letters and/or words are not clearly written. Remind candidates to check that their handwriting is clear enough to be read by someone who is not familiar with it. It is often better not to use joined-up writing, as letters can become confused and unclear.

Candidates should be reminded to write only as much as they need to, as marks are often lost attempting unnecessarily long answers, which provide more opportunities for making mistakes.

Because young candidates are unlikely to have had much experience managing their time in exams, it can be helpful when doing classroom tasks to give a time limit, both to improve concentration and prevent candidates being distracted by other things.

Make sure candidates are familiar with the structures and words in the Starters, Movers and Flyers syllabuses.

Part 1

Help candidates become familiar with vocabulary in a particular area of lexis (see thematic vocabulary lists at the back of this Handbook) and practise distinguishing between words on the vocabulary list that are similar, or commonly confused.

Encourage candidates to read all the options before they answer the questions, so that they become aware of all the different related words.

Tell candidates to make sure they read the whole sentence carefully before answering.

Remind them to be careful when copying their answers; many candidates lose marks by leaving out articles, adding unnecessary articles, forgetting to make words plural, or misspelling.

Part 2

Remind candidates that the whole sentence must be completely true to warrant a *yes* answer. Make sure they read the whole sentence carefully before answering.

Give candidates plenty of practice matching pictures and sentences, drawing their attention to key elements of vocabulary or grammar in the sentences and using pictures which make these distinctions clear. Give more pictures than sentences, so that they really have to pay attention to the distinctions between, for example, *spots* and *stripes*.

Part 3

Remind candidates to read all the alternatives before choosing the correct one. There may initially appear to be more than one correct alternative, but an understanding of discourse features and referencing will provide the correct answer.

Practise appropriate responses, not just to questions, but also to statements.

Give candidates plenty of practice in using the set (formulaic) expressions in the vocabulary lists, and with short *yes/no* answers.

Give candidates practice in choosing appropriate responses, by giving them prompts or questions of the kind found in this part and asking them to predict responses, before giving them the options.

Spend plenty of time establishing which words in the response refer back to the first speaker's words and therefore indicate a correct answer.

Part 4

Candidates should be encouraged to read the whole text to get a general idea of what it is about before trying to complete the first gap. Lexical and grammatical competence is being tested, so make sure candidates realise that they need to read the text surrounding the question to be able to correctly fill the gap. Practice in guessing which word, and which kind of word, could go into each gap would be extremely useful. Candidates can then confirm their guesses by seeing, and choosing from, the options on the facing page.

Give candidates practice in choosing the right form of words (plural/singular nouns, adjectives, verbs) within sentences and texts. Help them, to identify words or structures that will indicate what kind of word the answer is likely to be, e.g. if the gap is preceded by '*some*', the answer cannot be a countable singular noun.

Part 5

Useful practice for candidates can be gained from identifying lexis in, and establishing what is happening in, a picture. Candidates can then be given longer texts to read based around the picture.

In order to understand the story, give candidates practice in identifying different ways of referring to people or objects (e.g. *John, he, him, Paul's brother*), and how sentences can be turned around whilst retaining their meaning (e.g. *Last Sunday, our family went to the park to have a picnic* can become *The family had a picnic in the park on Sunday*). Also, practice in identifying what is being referred to in a text, especially the meaning of pronouns and adverbs such as *here* and *there* will be useful.

Remind candidates to copy the spelling correctly when taking words from the text.

Part 6

As with Part 4 above, candidates should practise forming and choosing the correct type of word (nouns, adjectives, verbs, etc.) to fit into sentences or texts.

Remind candidates that the options are given, so it is not necessary to think of a word to fit the space.

Make sure candidates are familiar with past forms of regular and irregular verbs in the Flyers vocabulary list.

Part 7

Give candidates plenty of practice in using common collocations such as *ask a question, do some homework*, etc.

Remind candidates to look for Part 7 on the back page of the test booklet. Some candidates have left all the answer spaces blank and may not have realised that there was one more part to complete.

As with all gap-fill tasks, candidates should practise choosing words which fit the surrounding text lexically and grammatically and which help the text make sense. Make sure they do not just consider the text immediately before and/or after the gap. Their choice of a correct answer may depend on something said further back or further ahead in the text. Encourage candidates to self-edit, making sure they re-read the whole text through before they decide their final answers.

Flyers Speaking

7-9 minutes/4 parts

The Speaking Test is a face-to-face test with one candidate and one examiner. It lasts approximately 8 minutes. The examiner's language is scripted to ensure fairness to all candidates. The script gives examiners scope to offer help and encouragement.

Each child is taken into the test by an usher. This is someone who speaks their first language and may be known to the child. The usher explains the test format in the child's first language, before taking the child into the exam room and introducing them to the examiner.

The mark for the Speaking Test is based on a rating for interactive listening ability, pronunciation, production of extended responses, and grammar and vocabulary.

Part 1

The examiner greets the candidate and checks the candidate's name. This part is unassessed.

The examiner starts the test by demonstrating what is required and showing the candidate two pictures which are similar but have

some differences. The examiner reads statements about the examiner's picture. The candidate must look at the candidate's picture, identify six differences and say how the picture is different.

Part 2

The examiner asks the candidate questions about a person, place or object, based on a set of question cues. The candidate responds, using a set of information cues. The candidate then asks the examiner questions based on a set of different question cues.

Part 3

The examiner shows the candidate a sequence of five pictures and describes the first picture in the story. He/she then asks the candidate to describe the other four pictures.

Part 4

The examiner asks the candidate some personal questions on topics such as school, holidays, birthdays, family and hobbies.

Summary of Flyers Speaking Test

Parts	Main skill focus	Input	Expected response
1	Understanding statements and responding with differences	Two similar pictures (one unseen) Oral statements about unseen picture	Identify six differences in candidate's picture from statements about examiner's picture
2	Responding to questions with short answers. Forming questions to elicit information	One set of facts and one set of question cues	Answer and ask questions about two people, objects or situations
3	Understanding the beginning of a story and then continuing it based on a series of pictures	Picture sequence	Describe each picture in turn
4	Understanding and responding to personal questions	Open-ended questions about candidate	Answer personal questions

Recommendations for candidate preparation

Candidates in the Flyers Speaking test are required to follow instructions and talk in a simple way about different visual prompts, and to answer simple questions about themselves. These are standard tasks in most English classes for Young Learners. Cambridge Young Learners English Tests Sample Papers give examples of the kind of pictures, instructions and questions candidates will be asked to respond to.

Part 1

For Part 1, candidates should practise listening to the teacher make a statement about a picture, (for example, *In my picture, the clock is black*), relating that to a picture in front of them, and commenting on the difference: *In my picture, the clock is red*. In the test, differences between the examiner's statements and the candidate's picture will relate to things like number, colour, position, appearance, activity, shape, and relative size, etc.

For example:

In my picture there are two/three drinks on the table.

In my picture, there's a helicopter in the sky/on the ground.

Part 2

As well as having practice in answering questions, candidates should also practise asking them. For example, in Part 2, they should be able to form simple questions to ask for information about people, things and situations. This will include information about time, place, age, appearance, etc. Candidates should be able to ask 'question-word questions' using *Who, What, When, Where, How old, How many*, etc.

For example:

What are the children studying?

They should also be able to ask 'Yes/No questions', e.g. *Has the teacher got a car?*

Additionally, they need to be comfortable asking questions with two options. For example:

Is the lesson interesting or boring?

Part 3

The Part 3 task involves candidates telling a simple story based on five pictures and candidates will benefit from practice in telling similar simple picture stories. However, examiners are not looking for evidence of storytelling skills. Candidates are only expected to say a few words about each picture in the sequence, without necessarily developing these comments into a narrative.

The structures candidates will need most frequently are *There is/are*, the present tense of the verbs *be* and *have (got)*, the modals *can/can't* and *must/mustn't* and the present continuous tense of some action verbs (for example, *come, go, buy, put on, carry, open, laugh*). They may also need to use the present perfect tense or *going to*. They should be able to say things like:

There is a big present for David.

He's playing the drums very loudly.

Candidates should also be able to describe simple feelings, for example:

David's excited.

Before asking candidates to tell the story, the examiner says *Just look at the pictures first*. Advise candidates to look at each picture in turn to get a general idea of the story before they start to speak. However, they should not worry if they cannot follow the narrative of the picture story. It is perfectly acceptable just to say a few words about each picture in the sequence without developing these comments into a story. The examiner will prompt by asking a question if a candidate needs help.

Part 4

Make sure candidates feel confident answering questions about themselves, their families and friends, their homes, their school and free time activities, their likes and dislikes and other topics related to their everyday lives. They should be able to answer questions such as:

What time do you get up on Saturday?

What do you do on Saturday afternoon?

Simple answers of a phrase or one or two short sentences are all that is required.

Questions will normally be in the present tense but candidates should also be prepared to use the past and present perfect tenses and *going to*, and to answer questions about, for example, what they did yesterday or are going to do at the weekend.
